Tangra™ S Pro Black

420-440W

N-type Bifacial Double Glass Mono Module

Bifacial technology enables additional energy harvesting from rear side (up to 30%)

30 years lifespan brings 10-30% additional power generation comparing with conventional P-type module

N-type solar cell has no LID naturally which can increase power generation

Excellent low irradiance performance.

Better light trapping and current collection to improve module power output and reliability.

Industry leading lowest thermal co-efficient of power.

Optimized electrical design and lower operating current for reduced hot spot loss and better temperature coefficient.

Certified to withstand: wind load (2400 Pa) and snow load (5400 Pa).

100% triple EL test enabling remarkable reduction of hidden crack rate of modules
